**Illinois Board of Examiners  
Score release for the October - November 2009 testing window**

**SCORE RELEASE CYCLE**

The Illinois Board of Examiners has received some electronic scores from the October - November testing window. Please look online to see your scores, if they do not show up we **have not** received them.

The scores listed below are now available for lookup on the online database. The Illinois Board of Examiners does not have a software program that produces the performance diagnostic report. **The paper copy is the official score report from the Illinois Board of Examiners** and contains the diagnostic. Official paper score notices will be processed and placed in the mail as soon as they are received in the Board office, printed and proofed. The American Institute of CPAs controls what scores are released and in what order.

**AUD, BEC, FAR, REG  
(All scores have been released for this window)**

**If you have been approved to test under the provisional courses in progress policy, you will not be able to see your scores online, nor will we mail them until your final transcript is received. We do not remind you about your final transcript - that is your responsibility to take care of within the 120-day deadline of taking your first CPA exam.**

How to access your unofficial/advisory scores online if you have established an online account with the Illinois Board of Examiners:

Click on the "Online Illinois" icon at [www.ilboa.org](http://www.ilboa.org). After your attendance information for October - November testing events is received from NASBA, when you check online for your score it will show that exam section as "Waiting for score". Once the score is received and processed, the numeric score will be available.

How to access your scores online:

- If you have already logged on using your default user ID and password (emailed to you from our office) and you have changed your user ID and password to a permanent one, you are ready to use the score lookup feature. Log on and then click "Examination Score Inquiry". Only scores from July - August testing events are displayed.

- Your initial log on **MUST** use only the default user ID and password sent to all candidates with email addresses. If you do not use this login and password, you will **NOT** be able to access your scores or reapply online.
- If you did not receive your default user ID and password in an email, contact our office by email [help@ilboa.org](mailto:help@ilboa.org) or call 217-531-0950 to request we resend your default user ID and password.
- **Do NOT click on “Create Your Online Account”!** If you do, you will not have access to any of your exam information or be able to submit a re-exam application online. For those who have already done this in error, we are working on deleting your incorrect record so you can access your real account. We will notify you when those fixes are complete.
- If no numeric score is displayed for an exam you took in October - November 2009, we have not received it yet. Scores will be uploaded to our database each day they are received even if this notice has not been updated yet.

Good luck on any parts of the exam that you have remaining and congratulations to those candidates who pass the entire CPA exam and the Ethics Exam and will soon be Illinois Certified Public Accountants.
